## SOURCE

The HALLE-NITTELEBEN (M 52/D 82) airfield and its buildings, except for the former insane asylum and the air signal school, was unoccupied on 21 June 1949. The landing field had a firm grass cover. About 160-foot strips had been plowed at the eastern and northern field borders. Most of the former air force quarters and hangars northwest of the field had been demolished; the technical installations were destroyed.

25X1A

[REDACTED] Comment: Report confirms information of 29 June 1949. There are no indications for an intended re-occupation of the airfield.
